

# SAND

A UV lacquer finish with a smooth, satin hand feel. Light wire brush and minimal texture. All open cracks and knots are filled with a dark slate epoxy. Sand is a whitewash finish with light to medium color variation and is offered in natural, prime, and premium grades in three unique widths. Standard lengths are 2 to 10 feet. Customization is available.

\* Wood is a natural material. The availability of specific species, grades and dimensions can vary on a month-to-month basis. For that reason, we cannot guarantee lead times on all products. This is especially true for longer lengths, wider widths, and cleaner grades.

## STOCKHOLM PLANK

SPECIES	FINISH	GRADE	PLATFORM	THK	WEAR LAYER	WIDTH	LENGTH	FILL	PROFILE	TEXTURE
