Standard Width Flooring

GRADING

BLACK WALNUT STANDARD WIDTH FLOORING

PREMIUM

Premium Black Walnut features vertical grain, clean lines and an exceptional modern elegance. No knots, cracks and even color range.

PRIME

Prime grade offers a clean center cut cathedral graining with less knots, no cracks and minimal sap wood.

NATURAL

Natural grade features dynamic grain, figure and coloring. Light brown and blonde sap wood will appear along the outer edges of the board, while heart wood towards the middle of the board is a rich chocolate brown. Natural Grade will contain filled knots and handsome cracks.

BLACK WALNUT

Known for its deep luxurious color, dynamic grain pattern and workability, black walnut is a perennial favorite for plank and pattern floorboards as well as millwork and cabinetry.

Wood is perfectly imperfect! All images are meant to indicate general characteristics, but every MADERA wood floor is a unique expression of nature made from living material. All wood floors, no matter how high the grade, will have variation in grain and character. Please contact our team at sales@maderasurfaces.com with any questions or concerns.
